From the Alps to the Mediterranean Sea, SFERA is a collaboration with small certified-organic growers to bottle and can wine in small batches from all over Italy. A singular vineyard on a hill, a few rows of mountain vines, some limestone soils near the sea: we're searching for unique terroirs from farmers working the land respectfully.

Wines to drink, wines with Terroir!

Tenuta Arabona is a family owned and operated winery, in the heart of Abruzzo.

Their wines are unique because of their drinkability despite of the area which is mostly connected to high alcohol levels.

Sfera Rosso Can from Arabona combines the soul of Abruzzo with the light finish of the Sfera Rosso wines. Fresh and juicy, with sour cherry fruit in the nose and some light earthiness in the palath with a slightly spicy finish. The funniest drink for a BBQ!
